

**CANDIDATE STATEMENT
AUBURN CITY COUNCIL - 2 YEAR**

Name: KELLEY DAVIS

Occupation: Non-profit Director/Parent/Registered Dietitian

Education and Qualifications: Growing up in Meadow Vista, I've cherished the foothills from a young age. Knowing Auburn inspires grit, adventure, and community spirit, I chose this city as my home to raise my own family. I value the parks, businesses, and community events that make Auburn the vibrant and inviting town that it is.

I am proud to serve as the Director of Auburn Trails Alliance, a non-profit that maintains the Auburn Bike Park and works to improve local bike and pedestrian infrastructure. I also hold a Masters Degree in Nutrition, with experience working for Stanford Children's Hospital and my own private practice. I want to use my passions, skills, and experience to help build a thriving community for all ages.

As a council member, I will advocate for responsible spending, fire and public safety, and for the establishment of creative revenue streams to better support our city. I will fight for our schools, work to preserve our environment, and promote active transportation. With your help, I will make Auburn stronger and more sustainable so that our next generation will not only cherish our city like we do, but will thrive within it.

Please vote for Kelley Davis for Auburn City Council.

**CANDIDATE STATEMENT
AUBURN CITY COUNCIL - 2 YEAR**

Name: MICHELLE SIERRA-SAMMONS

Occupation: Appointed City Councilwoman

Education and Qualifications: I moved to Auburn in 1998 because I fell in love with my (now) husband, and we stayed here because we fell in love with Auburn. I am grateful for all this City has given me-a career, friends that have become family and a sense of community. Over the years, I've become a member of local non-profit organizations and continue to volunteer for other service organizations in our community.

I'm entering my twenty sixth year working for the Placer County Assessor's Office, helping property owners understand property tax issues, and training other assessor offices and agencies throughout the state.

My priorities are to maintain and improve our public safety resources; increase support of our business districts and improve our city infrastructure without compromising our historic values.

Our city needs leaders who listen to residents, businesses, and neighboring entities. My experience working in local government, as a former school board member, and being an appointed Auburn City Council member has given me leadership skills to ensure open and respectful communication, so that everyone impacted by important decisions can have a place at the table.

I humbly ask for your vote to Auburn City Council on November 5th.
