**Name:** LINDA SALVADOR

**Age:** 65

**Occupation:** Retired

**Education and Qualifications:** My professional career has been exclusively in highly regulated sectors. Through-out, my responsibilities have included ensuring compliance with both statutory and regulatory requirements, as well as budget, resource and risk management.

The first half of my career was supporting USAF Missile Defense programs. Among other management responsibilities, I was responsible for staff and facility safety, including fire protection and suppression, hazardous material handling, and emergency medical response. The second part of my career was working for a large multi-national medical device company. I managed Global Strategic Sourcing – which involved identifying and assessing global providers of goods and services, and writing and negotiating contracts for those goods and services, including the labor components of those contracts.

The Foresthill Fire Protection District is a critical asset to our community and to our local region. It would be an honor to serve Foresthill and the FFPD as a Director, and leverage my experience and expertise to support the District leadership and staff in their public service mission. I respectfully ask for your vote in order that I may serve.
