

**CANDIDATE STATEMENT  
CALIFORNIA STATE SENATE, DISTRICT 1**

**Name: DAVID FENNEL**

**Age: 55**

**Occupation:** Entrepreneur

**Education and Qualifications:** My name is David Fennell. I am running to be your State Senator in the newly redrawn Senate District 1. From the White House to local offices, there is a concern that current leaders are too aged or sometimes are not healthy enough for the job. There needs to be a new generation to lead the North State!

Our great farmers literally feed our nation. Our education systems and businesses power the world economy. Yet too often our great North State is outvoted by special interests in Los Angeles.

It is time to elect a North State fighter who will ensure water for farmers, protect our forests against fire and ensure new economic development for our rural communities and inner cities.

The North State is in a state of transitions with a wave of retirees and an influx of new residents and technology companies.

We have problems with homelessness.  
Our university enrollments are down.  
Crime is up.

To address these problems we need to elect a new generation of leaders!

I am a business owner, but I also come from a farming family. I have the experience and education to lead our great state.

We want a leader who will expand opportunities while preserving our North State way of life.

It is time to elect a fighter!

Our best years are yet to come!

Vote David Fennell for State Senate!

I won't let you down California!

**CANDIDATE STATEMENT  
CALIFORNIA STATE SENATE, DISTRICT 1**

**Name: MEGAN DAHLE**

**Occupation:** Farmer/Businesswoman/Mother

**Education and Qualifications:** As an Assemblywoman, I championed issues of the North State in Sacramento and successfully secured tens of millions of dollars for our communities.

There is more work to be done.

Reducing California's high cost of living is my top priority.

Families can't afford the rising gas tax, higher taxes and increased healthcare costs.

That's why I fought to reduce the gas tax, backed legislation to cap the price of insulin at \$35 for a 30 day supply, voted to lower taxes on items needed by pregnant women, and supported legislation to require insurance companies to cover diagnostic imaging for women suspected of having breast cancer.

Crime is out of control and we need criminals off our streets.

In the Assembly, I led efforts to crack down on sexual predators, co-authored a law to more severely punish human traffickers, and backed measures to more effectively prosecute fentanyl dealers.

To reduce homelessness, I've supported legislation that addresses mental health and addiction issues.

Working to prevent catastrophic wildfires, I've fought for increased forestry management, proper maintenance of power lines, and increased firefighting resources. These efforts will improve fire insurance availability and cost, protect homes, and save lives.

The California Professional Firefighters, California Association of Highway Patrolmen and CAL FIRE Local 2881 support my re-election. Please join them and my campaign to get California back on track.

Please visit [www.votemegandahle.com](http://www.votemegandahle.com) to learn more about my values.

I would be honored to have your vote.
